The MAILING DATE of this communication appears on the cover sheet with the correspondence address Period for Reply					
A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 1 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION. - Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication. - If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely. - If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication. - Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Election/Restrictions

Restriction to one of the following inventions is required under 35 U.S.C. 121:

- I. Claims 1-8, drawn to a product, classified in class 257, subclass 666.
- II. Claims 9-15, drawn to process, classified in class 438, subclass 123.
- III. Claims 16-19, drawn to process, classified in class 438, subclass 123.
- IV. Claims 20-24, drawn to process, classified in class 438, subclass 123.

The inventions are distinct, each from the other because of the following reasons:

Inventions I and II, III, IV are related as process of making and product made. The inventions are distinct if either or both of the following can be shown: (1) that the process as claimed can be used to make other and materially different product or (2) that the product as claimed can be made by another and materially different process (MPEP § 806.05(f)). In the instant case, the product as claimed can be made by another and materially different processes. For example, between I and II, the product does not require 2 dice as in II; between I and III, the product does not require a wire with both ends bonded to the die and an exposed portion of the wire; between I and IV, I does not require the use of a wire to couple the leadframe to the conductive layer, instead one could use a solder ball.

Because these inventions are distinct for the reasons given above and have acquired a separate status in the art as shown by their different classification, restriction for examination purposes as indicated is proper.

Application/Control Number: 10/670,631 Page 3

Art Unit: 2829

This application contains claims directed to the following patentably distinct species of the claimed invention:

(A) If the product claims are elected, one species must be elected from each of the following:

- 1) Conductive layer:
 - a) ferromagnetic; or
 - b) Al, Cu, Sn or Zn; or
 - c) ferromagnetic and nonferromagnetic; or
 - d) EMI shield.
- 2) Wire coupled to the leadframe:
 - a) through the die and the wirebonds; or
 - b) through the pads.
- (B) If the product claims are elected, one of the following species must be elected:
- 1) a package having two die, which would further require electing one species from each of the following groups:
 - a) Conductive layer:
 - i) ferromagnetic; or
 - ii) nonferrous.
 - b) Wire coupled to the leadframe:
 - i) through the die and the wirebonds; or
 - ii) through the pads.

or

- 2) a package having a both ends of a wire attached to a die and a portion of the wire exposed; or
- 3) a package that does not require a pad and does not require exposing a wire to attach the leadframe to the conductive layer.

(B1)

Applicant is required under 35 U.S.C. 121 to elect a single disclosed species for prosecution on the merits to which the claims shall be restricted if no generic claim is finally held to be allowable. Currently, no claims are generic.

Applicant is advised that a reply to this requirement must include an identification of the species that is elected consonant with this requirement, and a listing of all claims readable thereon, including any claims subsequently added. An argument that a claim is allowable or that all claims are generic is considered nonresponsive unless accompanied by an election.

Upon the allowance of a generic claim, applicant will be entitled to consideration of claims to additional species which are written in dependent form or otherwise include all the limitations of an allowed generic claim as provided by 37 CFR 1.141. If claims are added after the election, applicant must indicate which are readable upon the elected species. MPEP § 809.02(a).

Should applicant traverse on the ground that the species are not patentably distinct, applicant should submit evidence or identify such evidence now of record showing the species to be obvious variants or clearly admit on the record that this is the

the prior art, the evidence or admission may be used in a rejection under 35 U.S.C. 103(a) of the other invention.

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).

Any inquiry concerning this communication or earlier communications from the examiner should be directed to David A. Zarneke whose telephone number is (571)-272-1937. The examiner can normally be reached on M-F 7:30 AM-6 PM.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, William Baumeister can be reached on (571)-272-1712. The fax phone number for the organization where this application or proceeding is assigned is 703-872-9306.
